Risk analysis

Business risk

Myanmar – Despite its debut in the World Bank Doing Business guide, Myanmar remains one of the world's most interesting but difficult investment locations.

Operational risk ratings review

World – Ten up and ten down in October. Japan, the UAE and Nigeria were among the big gainers, but a coterie of smaller states were downgraded.

Credit risk

India – We have downgraded India's banking risk rating to B, in view of the continued stress on the banking sector and an expected increase in bad loans.
